READING THIS CHART:
 Numbers are monthly percentages of each category's yearly business.

"HOT" months (8.6% or more of annual sales) are in **RED**.

Average months (8.0% - 8.5%) are in **BLUE**.

Below average months (under 8%) are in **BLACK**.

These seasonality trends are based on national three-year industry averages to minimize such variables as moveable holidays, inflation or recession, product shortages, and so forth. Actual local or regional curves may differ due to climate, market variation, etc.

OTHER BUSINESSES:
 Certain major industries (and important Radio advertising categories) have been excluded from this chart because their annual curves are too unstable to track accurately. For seasonal trends on many other advertiser categories, consult the Instant Background series or contact RAB Research.

Sources: Data is obtained from the U.S. Department of Commerce and publications focusing on specific industries.
