

Radio's Cume Audience

The U.S. 12+ population base increased from 308.6 million in 2010 to 332.9 million in 2021 according to the U.S. Census Bureau. As of September 2021, one of AM/FM radio's key factors is its ability to reach 234 million listeners.

With the plethora of new media choices, radio still offers near universal coverage of the broad 12+ demo, underscoring radio's appeal to listeners young and old.
